LATEST NEWS & UPDATES

What Is Medically Integrated Dispensing (MID) & How Does It Simplify the Patient Journey?

When patients receive their care and specialty medications from a single site of care, their trusted provider's office, it simplifies their care journey.

They no longer need to work with external pharmacies, which often results in medication delays. With MID, therapy rates improve, clinicians have visibility into the entire patient journey, and abandonment rates drop.

Enhanced Revenue and Patient Care with In-Office Infusions (IOI)

When patients receive infusions at their provider's office, three things change: their physician is nearby if something goes wrong, the staff knows their history, and the environment feels familiar.

For patients managing specialty conditions, that combination transforms the infusion day from stressful to manageable.
