

## INTERCONNECTOR DEVELOPMENT

We support our partners with a full-service approach to electricity markets and the energy transition.

Interconnectors are a cornerstone of electrification and thus a crucial enabler for the energy transition.

Our comprehensive services guide project promoters in identifying profitable opportunities, regulation analyses, business model development, and project planning.

THE PLURAL OF ENERGY

## About Us

OMNIA GmbH is a new wave of energy advisors.

We are an expert-driven technical consultancy company with extensive experience in regulatory matters and political processes relating to energy market reform and energy transition.

We focus on supporting our partners in designing, implementing, and navigating the legislative and regulatory landscape for sustainable, competitive, transparent and efficient energy markets.

We are represented in four cities: **Munich, Vienna, Tbilisi and Ankara.**

## Interconnectors are our Core Business

- >100 years of experience in TSO business
- Strong network of independent electricity sector experts with decades of experience in the development of big-ticket infrastructure
- Multi-year cooperations with operational as well as early phase interconnector projects
