VCCS master board

VCCS → input protocol → Converter → output protocol →

- MDB
- Pulse
- ccnet
- cctalk

→ coin acceptor

→ bill acceptor

→ cashless payment device

* already implemented

* in the production roadmap

Give new life to old Japanese VMs that use VCCS. Refurbish and save costs.

Connect any payment options, including non-cash ones.

Collect data and send it to your telemetry/VMS solution to support decision-making process
