

FLAT ROOF RANGE

REGUPOL® RESIST STANDARD

THE INTRODUCTION TO PROTECTIVE LAYERS

- Regupol Resist Standard provides reliable and sustainable protection for flat roof waterproofing and insulation.
- Available in sheets and rolls, depending on specific project requirements.
 - Material thicknesses from 6 to 10 mm available from stock, depending on requirements. Other thickness available on request.
 - No build up of static charge - antistatic in acc. with EN 1815.
 - Resistant to acids and alkalis as far as possible.
- Pressure-resistant, resistant to microbes, ageing and temperature, permanently elastic, water-permeable, open to water vapour diffusion and rot-proof.
- Simple and efficient installation, no need to wait for other roof work to be carried out.
