Student Reviews

My
CPD PROVIDER

I recently trained with Cassie completing the 3-day intense course. I was so nervous to start with but by the end of the course, I walked away full of knowledge, confidence and excitement to start my journey as a skin specialist.

Cassie is a fountain of knowledge; she answered any questions I had in great detail.

Cassie's continued support and mentorship has been invaluable. I'll 100% be back for more training in the future.

Erne | @ernedonaghyskin

I recently trained with Cassie for her 3-day intense skin course and I came away with so much knowledge and confidence in skin, just after 3 days.

She really knows her stuff and you can see the passion when she teaches, especially when teaching about the human anatomy and how amazing our body is in healing and repairing our skin!

The continued support after, has been amazing too; if you ever have any questions, she's right there to get back to you.

Will 100% be coming back for more day courses to keep my knowledge and skills up to date.

Justine | @justforyouaesthetics

Cassie was a dream to train with. I was super nervous to get started as I'm new to the world of skin but made me feel at ease immediately.

Her knowledge of not only skin treatments but the entire body anatomy is incredible.

Throughout my course I learnt so much and felt confident walking away, ready to start with clients alone. She also includes a great take home pack that has all the information, in case you question anything when she's not by your side.

She honestly is absolutely amazing at what she does, and I'll certainly be back if there's anything else I'd like to learn in the future.
