

The choice is (not) Clear. It's paper!

RTape Clear Choice® is our plastic application tape option while RTape Conform® paper application tape delivers better performance, a lower carbon footprint and strengthens your position in a changing market.

Better performance

Premium design for durability, efficiency and quality. No compromise on usability, easy handling and the best lay-flat properties in the market.

Better for the planet

Made with FSC®-certified paper (C084395), the first on the market. RTape's paper tapes have 45% lower carbon impact than plastic, backed by science.

Better for your business

Stay ahead of single-use plastic bans, future-proof your business (EUDR compliance) and show your commitment to sustainability.

**1 roll plastic tape to paper tape
= avoiding 460 plastic bottles.***

*Calculation based on LCA by VITO and standard CO₂ conversion factors (ACS Publications).
