

Frosted Horizontal Lines

An optically clear polyester bird protection film with grey frosted double horizontal lines that helps prevent bird strikes by breaking reflections on glass without significantly affecting the view from inside. Its weather resistant, UV stabilised and scratch resistant construction also helps hold shattered glass together in the event of impact for added safety.

FACE FILM

Clear polyester

Thickness (µm)	100
Finish	Clear with a pattern of 3mm double horizontal lines and 25mm clear spacing (pattern runs across the width of the film)

ADHESIVE

Acrylic, removable

Thickness (µm)	50
----------------	----

RELEASE LINER

Clear siliconised synthetic

Thickness (µm)	25
----------------	----

PRODUCT APPLICATION

Application method	Wet
Application temperature (°C)	10 to 30

DURABILITY

Shelf life (months)	24
Outdoor durability (years)	7

For high humidity or waterfront environments, edge sealing is recommended one week after installation to maximise film longevity.

ROLL SIZE

1470mm x 30m

Nekoosa Coated Products, LLC guarantees the material for twelve months from the date of final invoice. The shelf life of our material depends on storage conditions. The end user should store the material in the original boxes or in equivalent boxes, away from direct sunlight, at a temperature of 21°C and 50% relative humidity. Nekoosa Coated Products, LLC guarantees that the products are free from defects in workmanship or defects in Nekoosa material, provided they are stored properly. At its sole discretion, Nekoosa Coated Products, LLC may either: (1) replace all or part of the materials, or (2) issue a credit note for the value of the defective portion. All quoted data values are typical and should not be used as a basis to consider the product defective if measured values differ.
