

TRIFECTA®

Create floor, wall, and countertop graphics with one universal print media: Trifecta®. These high-opacity films feature an excellent white point and are designed as a one-step floor graphic, no lamination required. Trifecta® is available in three finishes.

TRIFECTA®

A range of multipurpose, textured wide format print vinyls designed for versatility and ease of use. Its semi-rigid 150 micron thickness makes application smooth and controlled, even for large-format applications.

Featuring high opacity and an excellent white point, it ensures vibrant and consistent print quality. Trifecta® performs on a wide range of smooth surfaces, including painted walls, wallpaper, wood paneling, concrete, and polished stone. It removes cleanly from both indoor and outdoor surfaces for up to 6 months.

APPLICATIONS

- One-step floor graphics
- Wall graphics
- Countertop graphics
