MINDFULLY CRAFTED
WEDDING FILMS WITH SOUL

BASED IN THE UK, AVAILABLE WORLDWIDE

CHRISTOPHER OXLEY

Your wedding films should feel like you, and like the people around you. That means time with your guests, the atmosphere, and the moments that carry weight.

I film as things happen, stepping in with subtle guidance only when it genuinely helps. You stay present with your guests instead of disappearing for long shoots.

You'll deal with me from first call to final delivery. I take a limited number of weddings each year, so each film gets proper attention.

*“The wedding film is so beautiful and edited so well.
You’ve really managed to capture the spirit of the day.”*

FAQs

Do you travel and are there additional costs?

I am based in England and regularly cover weddings across the whole of the UK.
UK weddings: travel included. Accommodation included where required.
International weddings: travel and accommodation *are not* included.

What is your delivery time?

From your wedding until final delivery of all films is typically 4-6 months. Social teasers are delivered within seven days of your wedding. I offer a priority editing service if you need your wedding film back within 30 days.

Do you offer custom packages?

Yes. If your plans don't fit the collections, I can tailor coverage and deliverables around what you're doing. This works well for multi-day weddings, destination plans, or days that need extra privacy. Tell me what you have in mind and I'll suggest the best approach.

Can I pay with instalments?

Yes. To secure your date, I take a 50% booking payment. You can then pay the balance in instalments if you'd like. Tell me what schedule suits you and I'll set it up.

Can we meet?

Yes. A quick call is often the easiest way to talk it through and see if I'm the right fit. Email me your date, venue, and the collection you're leaning towards, plus a few details about your plans, and I'll send over some times.

Ready to talk?
