

Friends and colleagues,

I am excited invite you to join us for the Tulsa Study Club 2025-26 season!

Our curriculum this year is a true meeting of minds from many perspectives within the dental profession. We will kick things off in September with dual-trained periodontist/prosthodontist, Dr. Owen Trinh, who will illustrate shifts in implantology practices. In October, we will participate in a hands-on exploration of minimally invasive esthetic dentistry with restorative specialist, Dr. Augusto Robles. The fall semester will conclude in November with a presentation about essential financial decisions by Charles Loretto of Cain Watters & Associates.

Our spring semester will resume in January, with Dr. Guto Giordani's perspective on using old implants in new treatment plans. His session will be followed in February by a treatment planning presentation by our own Tulsa Study Club members. In March, prosthodontist Dr. Nader Sharifi will provide insight in decision making for endodontically treated teeth. We will finish out the year in April with a special surprise session you will not want to miss, emphasizing what really matters most and led by some of Seattle Study Club's innovators...trust me, you will be talking about this experience for years to come (for all the right reasons).

At Dental Surgical Arts of Tulsa, we have been honored to provide Seattle Study Club-based education for more than a quarter of a century. The Tulsa Study Club group has been an invigorating resource for our practice and for the practices involved in the club. As we progress into an ever-evolving era of dentistry, we hope you will join Tulsa Study Club for our 27th year together.

Cheers,

Jordan M. Pierce

Tulsa Study Club 2025-2026
