

# NightSky US Small Cap Strategy

## WHY INVEST IN OUR US SMALL CAP STRATEGY?

**Outperformance Potential:** Seeks to outperform the Russell 2000 Index on a risk-adjusted basis over a full market cycle using our proprietary algorithm.

**Portfolio Diversification:** Seeks to offer complementary returns to other US small cap managers and funds in your portfolio, both active and passive.

**Systematic:** Leverages our proprietary, fully quantitative algorithm to eliminate human emotion and bias in stock selection and portfolio construction.

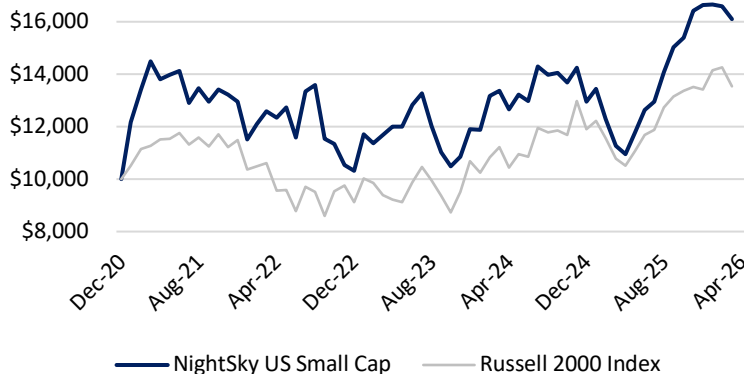

**Dynamic:** Invests in the parts of the market that our algorithm deems most attractive, dynamically shifting between stocks in different sectors and industries as tides in the market shift.

## STRATEGY DETAILS

## GROWTH OF 10,000 USD SINCE INCEPTION

The line graph represents the cumulative performance of a hypothetical \$10,000 investment. The returns are net of the strategy's management fee but do not include the deduction of taxes to which an investor may be subject as a result of being invested in the strategy. If they did, the returns would be lower than those shown.

## STRATEGY OBJECTIVE & PROCESS

**Objective:** Our US Small Cap strategy seeks to outperform the Russell 2000 Index over a full business cycle using our proprietary algorithm, which is systematic and fully quantitative. The strategy is agnostic about stock fundamentals or valuations and seeks to generate substantial outperformance over the long-run.
