

NightSky US Small Cap Strategy

WHY INVEST IN OUR US SMALL CAP STRATEGY?

Outperformance Potential: Seeks to outperform the Russell 2000 Index on a risk-adjusted basis over a full market cycle using our proprietary algorithm.

Portfolio Diversification: Seeks to offer complementary returns to other US small cap managers and funds in your portfolio, both active and passive.

Systematic: Leverages our proprietary, fully quantitative algorithm to eliminate human emotion and bias in stock selection and portfolio construction.

Dynamic: Invests in the parts of the market that our algorithm deems most attractive, dynamically shifting between stocks in different sectors and industries as tides in the market shift.

STRATEGY DETAILS

As of June 30, 2026

Inception Date	1/4/2021
Management Fee	1% of AUM
R-Squared <i>With Russell 2000 Index (Monthly, Since Inception)</i>	0.60
Number of Holdings	28
Weighted Avg. Market Cap	\$2.8bn
Strategy AUM	\$0.1mm
Advisor	NightSky Capital
Firm AUM	\$3.6mm

GROWTH OF 10,000 USD SINCE INCEPTION

The line graph represents the cumulative performance of a hypothetical \$10,000 investment. The returns are net of the strategy's management fee but do not include the deduction of taxes to which an investor may be subject as a result of being invested in the strategy. If they did, the returns would be lower than those shown.

STRATEGY OBJECTIVE & PROCESS

Objective: Our US Small Cap strategy seeks to outperform the Russell 2000 Index over a full business cycle using our proprietary algorithm, which is systematic and fully quantitative. The strategy is agnostic about stock fundamentals or valuations and seeks to generate substantial outperformance over the long-run.

RISK METRICS

As of June 30, 2026

	Strategy	Russell 2000
Sharpe Ratio	0.52	0.40
Std. Dev.	23.9%	19.9%

Max Drawdown Recovery Duration	54 Mos	37 Mos

Benchmark: Russell 2000 Index. Metrics are calculated using monthly return streams and are since inception.

STRATEGY NET PERFORMANCE

As of June 30, 2026

	QTD	YTD	1Y	3Y	5Y	ITD
NightSky US Small Cap	24.97%	20.90%	59.18%	16.18%	7.32%	13.55%
Russell 2000 Index	21.57%	22.69%	40.91%	18.62%	6.98%	9.49%
+ / - Benchmark	+3.40%	-1.79%	+18.27%	-2.44%	+0.34%	+4.06%

Past performance does not guarantee future results. All performance data quoted represents past performance from selected brokerage accounts used to track the strategy's live performance during different time periods and linked to present a continuous return history. Returns for less than one year are not annualized. Net performance reflects returns after a 1% annual management fee (0.08% monthly), applied on a pro forma basis in periods where the underlying account was not charged an advisory fee. Total Return reflects the reinvestment of dividends from the strategy's holdings.

Holdings are subject to change. Geographic Breakdown relates principally to the domicile of the issuers of the securities held by the strategy. Sector Breakdown is based on the Global Industry Classification Standard (GICS). **Past performance does not guarantee future results.** All performance data quoted represents past performance from selected brokerage accounts used to track the strategy's live performance during different time periods and linked to present a continuous return history. Returns for less than one year are not annualized. Net performance reflects returns after a 1% annual management fee (0.08% monthly), applied on a pro forma basis in periods where the underlying account was not charged an advisory fee. Total Return reflects the reinvestment of dividends from the strategy's holdings.

Before investing you should carefully consider the strategy's investment objectives, risks, charges and expenses. This fact sheet, alone, does not represent an offer or solicitation to invest in this strategy. The principal risks of investing in the NightSky US Small Cap Strategy include: Equity Securities Risk. The value of the equity securities the Strategy holds may fall due to general market and economic conditions. Foreign Securities Risk. Investments in the securities of foreign issuers involve risks beyond those associated with investments in U.S. securities.

Index Descriptions: The Russell 2000 Index® is a widely recognized capitalization-weighted index that measures the performance of the small-cap segment of the U.S. stock market. The index does not reflect the deduction of fees or expenses. Index returns are shown for comparative purposes only and are not indicative of the performance of any specific investment. Investors cannot invest directly in an index. Index performance data is sourced from Bloomberg.
