Implementation Process

How Our Clients benefit

Intuitive User Experience

End Users access the solution using our functionally rich and intuitive Dashboard which gives an immediate view of report progress - including any critical errors that should be resolved - along with any KPIs required as well as Drill Down and Analytics.

Data Assurance

Tight, effective integration with all source systems, eliminating the need for any data preparation.
Data Validation, Cleansing and Reconciliation capabilities ensure accuracy and integrity before calculation and allocation engines are brought into play.

No Touch Workflow

Full Automation of all tasks until End User opens the reports for of review and approval - minimising manual intervention and optimising user expertise and experience.

Transparent Costs

We are committed to clear, upfront pricing with no hidden charges. Our fixed-price projects ensure complete cost transparency, eliminating the risk of unforeseen expenses during implementation. Regulatory updates to existing returns are included at no additional cost, ensuring your licence fees remain stable and predictable.

24/7 support

Our team is available for you 24/7 as standard, something unique among regulatory reporting vendors, ensuring that your team will never need to experience delays in producing reports again.

Our 3 Pillars Of Value Have Ensured A Consistently Satisfied Client Community

Assurance	Precision	Innovation
Our solutions insulate our client community from uncertainty with fixed price projects, comprehensive regulatory updates and 24/7 support.	Data accuracy and integrity assures our clients' Regulatory Reporting and decision making are based on precise and complete information.	Our use of new technology allows us to provide the most reliable, forward looking Regulatory Reporting solution possible.

Some of Our Clients

Testimonials

"Unlike other vendors they do map the data into regulatory returns from different sources rather than providing single template to client."

Saalim Mahmood, CFO, Bank Al Rayan

"The Focusync team have consistently delivered exceptional service. They respond quickly to our queries and address any issues promptly."

Robert Mathews, Head of Finance, UBL

"A key benefit of implementing Focusync has been the level of customer service. The team are responsive, helpful and available any time."

Roz Wright, Head of Regulatory Reporting, FirstBank UK
