

PNEUMATIC CONTROL PANELS
CAMOZZI AUTOMATION UK

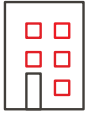

Camozzi Automation UK offers bespoke pneumatic and electro-pneumatic control panels built to meet the exact requirements of your application.

From simple standalone panels to fully integrated control systems, we support customers across all industry sectors with reliable, cost-effective, and high-quality solutions. These are manufactured at our UK facility and backed by 25 years of panel-building experience.

FROM CONCEPT TO COMPLETION

On-site meeting to understand your needs

Panel designs include 2D schematics and 3D modelling

Clear and timely quotation

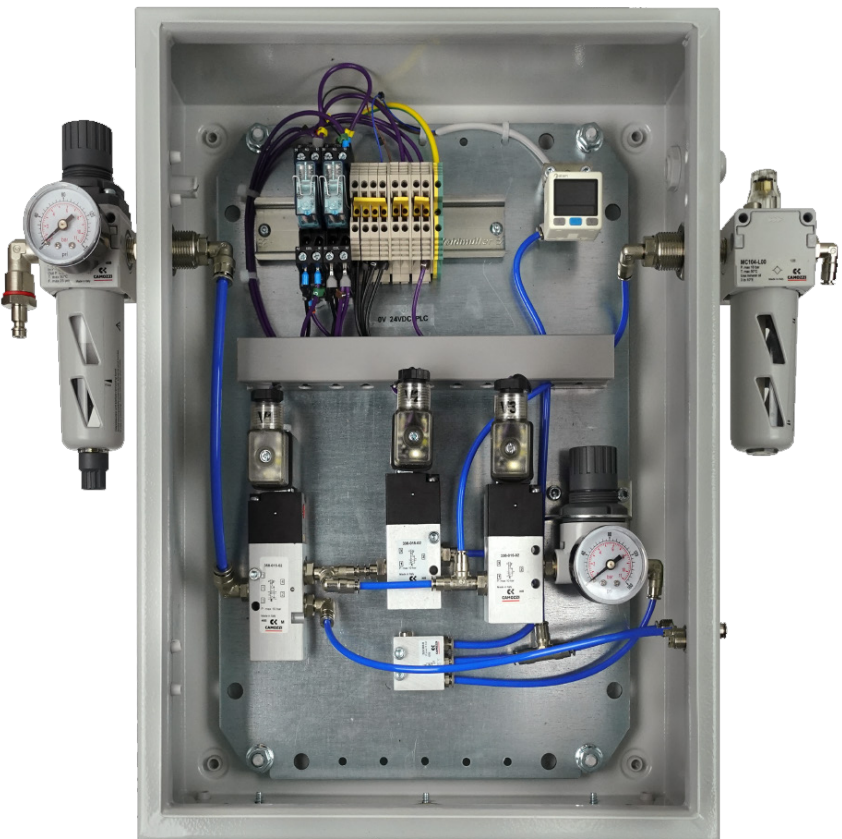

In-house build at our UK Automation Centre

Tested in-house before dispatch

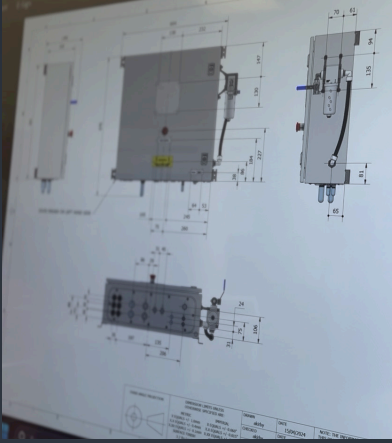

KEY BENEFITS OF WORKING WITH CAMOZZI

- » Over 25 years of automation and panel build experience.
- » High-quality Italian-manufactured components.
- » Plug & play solutions for straightforward installation.
- » Quick quote turnaround from the initial discussion or site visit.
- » Short lead times – typical build and dispatch within 3 weeks.
- » Comprehensive after-sales and technical support.
- » Fast panel replacement or upgrades to minimise downtime.
- » In-house testing and full traceability.
- » Panel designs and enclosures suitable for harsh or demanding environments.
- » Custom branding available, including customer logos and part numbers.

Our pneumatic and electro-pneumatic control panels are designed to perform in harsh and extreme environments, such as building materials manufacturing plants, using IP-rated products and enclosures.

IN-HOUSE TESTING

Leak testing for pneumatic systems

Functionality testing, based on our procedure or any specifications you require

Labelling with part number, works order, and engineer details

QUALITY CONTROL

Full build traceability and documentation as standard

Standard Test Certificates included, with additional options available (CofC)

Document pack provided if required

AFTER-SALES AND TECHNICAL SUPPORT

Commissioning support is available, both remotely and on-site.

Technical advice available via phone, email, or video.

Ongoing assistance with panel upgrades, spares, and documentation

Our responsibility doesn't end with delivery. We're committed to supporting you throughout the life of your panel, providing comprehensive support that gives you peace of mind.

SCAN TO MEET OUR TECHNICAL TEAM

Here at Camozzi, our Application & Automation Centre is the heartbeat of our technical operations. Our friendly Application Team is your go-to for all things technical, electro-pneumatic control panels and projects.
