75.22		76.74	
Score Footprint		Score incl. Handprint	
82.32	66.67	78.11	
Score Environment	Score Social	Score Governance	

Certification Status **scored**

The certification status indicates whether and to what extent the data has been checked by an esg2go audit partner. Status "**scored**": a score has been calculated, an audit has not yet taken place. Status "**checked**": Online document check. Status "**verified**": On-site audit.

A score of 60 points corresponds to a B and 80 points to an A in the british grading system. The footprint represents what the company causes. The handprint shows the extent to which the company is part of the solution with its main product/service. The handprint score is made up of the footprint score plus the recognized points of the handprint.

All scores relate to the comparison group, the so-called benchmark. The benchmark is made up of companies with the same industry affiliation (NOGA code) and the same size category. The esg2go Rating & Reporting Standard was developed by the CCRS (Center of Corporate Responsibility and Sustainability). Further information at esg2go.org.
