

Methodology Note:

Survey conducted 7/21 – 7/31 via phones and text-to-web with 2000 registered voters who identify as Hispanic or Latino nationally. The sample was weighted to match the composition of registered voters modeled as Latino by state, gender, age, education, and 2024 vote recall. The sample was also weighted by age, education, 2024 vote recall by gender, and geography, to match the composition of registered voters modeled as Latino in each state with a sample size over 200 and in the Mid-Atlantic region (DE, MD, PA, NJ, and NY) and the Southwest region (AZ, CO, NM, and NV). Additionally, the sample was weighted by age, geography, and 2024 vote recall by gender within targeted competitive Congressional Districts. Language of interview, place of origin, education and other variables were monitored during the fielding. The survey was conducted in English and Spanish, according to the respondent's preference. MoE is ~2.0 % for the full sample, ~6.0% for FL, the Mid-Atlantic, and Southwest, ~5.0% for TX, and ~4.0% for CA.

Q.41 (SPLIT A) Now, let me read you some statements made about the Trump Administration's accomplishments over the past six months. Please tell me whether you agree more with the first statement or the second statement, even if neither is exactly right.

(TRUMP STATEMENT) In his first six months, Donald Trump has focused on the right priorities and delivered on his campaign promises. He stopped the flow of immigrants and drugs at the southern border, cracked down on criminals in our communities, shrunk the size of government, and he's put American workers and interests first.

(OPPONENTS' STATEMENT) In his first six months, Donald Trump has focused on the wrong priorities and has not delivered on his campaign promises. Trump is more focused on going after hardworking immigrants and picking fights with colleges and foreign countries than on lowering the cost of living for hard-working people and their families.

Do you agree more with the first statement or the second statement?
