

DS Series Rotary Screw Air Compressors

The Tamsan-USA **DS Series** rotary screw air compressor is one of the most efficient on the market while being easy to service. We offer open access to our machines without RFID chips and expensive add-ons because we believe that when you purchase a Tamsan-USA compressor, you also buy access to it. Additionally, unlike many other manufacturers on the market today, we use as many off the shelf components as possible to maximize uptime of your facility.

This rugged and quiet machine is built to go the distance. That is why we back the **DS Series** compressor with our **lifetime airend warranty**.

General equipment information:

- 32psi adjustable minimum pressure check valve
- Normally closed, load-empty suction valve with command
- 2 micron resolution dry-type air filter
- 71 F controlled thermostatic valve
- Microglass front fiber air panel filter

For additional information about the compressor, scan the QR code.
