

D Series Rotary Screw Air Compressors

The Tamsan-USA **D Series** is a direct drive (1:1) rotary screw compressor made with premium components for maximum reliability. Our microprocessor never requires an RFID card or an external module to access data. They're open access and can integrate easily into your BMS. It's easy and it's free. Our rugged machines can go the distance, no matter the location. That is why back the **D Series** compressor with our **lifetime air end warranty**.

General equipment information:

- 32psi adjustable minimum pressure check valve
- Normally closed, load-empty suction valve with command
- 2 micron resolution dry-type air filter
- 71 F controlled thermostatic valve
- Microglass front fiber air panel filter
