

Let's talk
HERChoice

FOR
HIM

THE PrEP RING DOES NOT AFFECT SEXUAL PLEASURE

The PrEP ring has little to no effect of sexual pleasure and cannot be felt by most male partners.

**THE PrEP RING DOES
NOT AFFECT MEN'S
SEXUAL HEALTH**

It only reduces the chances of HIV-1 infection for women during vaginal sex. It does NOT affect men's sexual health or cause any medical problems.

**THE PrEP RING IS NOT
EASILY DISLODGED
DURING SEX**

It has little to no effect on sexual pleasure and cannot be felt by most male partners. As it sits on the cervix, it unlikely to be pulled out or dislodged during sex.

**THE PrEP RING ONLY
PROTECTS
AGAINST HIV**

It only reduces the chances of HIV-1 infection for women during vaginal sex. It will NOT prevent you or your sexual partner from contracting other sexually transmitted diseases.
