

AI FinServ Launchpad

Program Overview

Build the next fintech without a dev team.

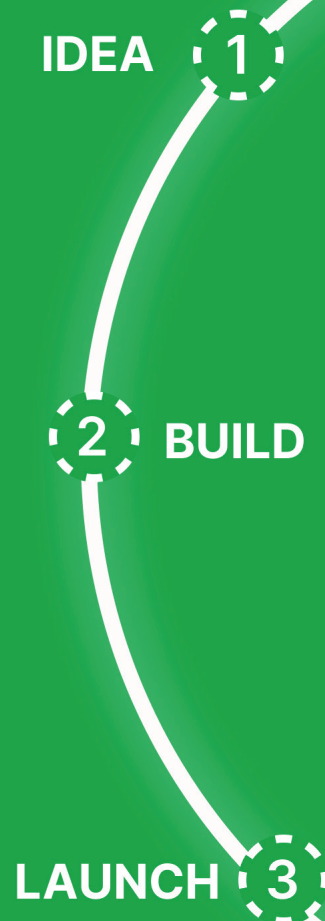

www.uptiq.ai/launchpad

The Faster, Smarter Way to Build a Fintech

The Uptiq AI FinServ Launchpad is a first-of-its-kind program that turns financial expertise into AI-native financial products without requiring engineering teams, large capital investment, or 12–18 month build cycles.

Participants learn, build, and launch using **Uptiq's QORE AI Platform**, backed by:

- Engineering
- Compliance
- Infrastructure
- GTM & distribution

“You don’t graduate with a pitch deck. You graduate with a live product.”

Designed for the Builders Who Understand Finance, Not Just Code

01

Founders & fintech operators

02

Lending, treasury & payments experts

03

Risk & compliance professionals

04

Wealth management leaders

05

Bank & credit union intrapreneurs

06

Anyone who deeply understands a financial workflow

No engineering experience required.

No coding required.

No full-time technical team needed.

If It Runs on Policies, Documents, Approvals, or Decisions — It Can Be Built Here
