

# CLEANROOM POWERSTATION

MOBILITY FOR CLEANROOM  
MANUFACTURING

## *The Definitive Mobile Power Solution for Critical-Environment Applications*

The Cleanroom PowerStation is a stainless steel workstation designed for the rigorous standards of Good Manufacturing Practice (GMP) for Class A cleanroom environments. Designed for easy cleaning, it reduces motion waste and eliminates fixed workstations on your manufacturing line. It allows for seamless data collection of electronic batch/production records and laboratory activities at the point of task. With an advanced battery power system, it is ideal for strenuous environments as it can guarantee 100% uptime with no risk of lost data during any GMP operation.

## *Increase Efficiency and Productivity*

- World's most advanced Uninterruptable Battery System (UBS) offering 24/7 uptime
- Lightweight, agile, and efficient
- Designed for extreme safety & performance

DTG Cleanroom PowerStation

DTG's Cleanroom PowerStation is designed to  
surpass strict Class A Cleanroom ISO Standards

## FEATURES THAT EMPOWER MOBILITY

| FEATURES          | DTG M <b>POWER</b> BATTERIES | DTG BENEFITS   |
|-------------------|------------------------------|--|
| Ergonomic         | Yes                          | Lightweight and strategically positioned components            |
| Battery Chemistry | LiFE                         | LiFE batteries are the safest and greenest batteries available |
| Uptime Percentage | 100%                         | No downtime with uninterruptable instant-swap batteries        |
| Remote Charger    | Yes                          | Optional standalone charger for off-cart charging              |
| Recharge Time     | 2 hrs                        | Faster charging reduces the number of batteries needed         |
| Capacity          | 250-500 Wh                   | Modular batteries allow for added capacity                     |
| Battery Weight    | 6 lbs                        | DTG batteries are substantially lighter                        |
| Warranty          | 5 yrs                        | The DTG warranty is unmatched in the industry                  |

### Specifications

- Dimensions 61"H x 24"W x 24"L
- Made with a stainless steel frame and angular design for easy sanitization
- Sealed monitor bridge for 24" monitor to keep particulates from getting in or out
- Battery and service compartment with sealing door for electrical components and IT equipment
- Sealed IEC AC receptacle and ethernet port for operational variability
- Electronic height adjustment from 830mm (32.5") to 1000mm (40")
- Ventilation with MERV 17 Filters for electrical components
- Swivel, Tracking, and Locking Casters
- Printer shelf for small industrial thermal printers
- Barcode Scanner Bracket

DTG M**Power** LiFE Battery System is at the heart of every Cleanroom **PowerStation**
