

WORKBENCH POWERSTATION

MOBILIZE MANUFACTURING
ACTIVITIES TO THE POINT OF TASK

100% Lithium Battery Power Brings Power to the Point of Task

Regardless of your industry or role, many operations require significant workspace to perform any workflow. The mobile workbench mobilizes traditionally fixed workstations and provides the necessary space to perform a variety of tasks. Whether you are in manufacturing and looking for a way to mobilize your assembly stations, or you are performing picking activities in a supply chain role, DTG's mobile workbench allows you to engage in these activities and eliminate the waste that exist with traditionally fixed workstations.

Manufacturing Environments

Operators will no longer be burdened by transportation or motion waste within a manufacturing environment. Reducing waste saves time, money, and lowers potential quality issues for faster production runs. Allowing equipment to move freely on the floor allows you to perform in-process or final testing on products on the manufacturing line.

Supply Chain Environments

This workbench improves productivity over traditional fixed picking stations by mobilizing technology for your workforce to do their job efficiently, at the point of task. It facilitates high-volume picking operations by storing products within reach.

X600P Workbench
PowerStation

DTG's rugged mobile workstations bring technology wherever your employees need it!

WORKBENCH POWERSTATION

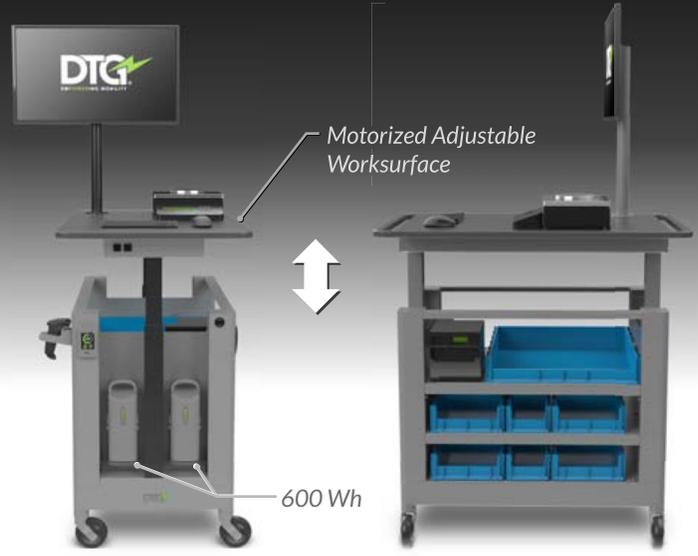

CONFIGURATIONS TO FIT DEMANDING REQUIREMENTS

Features

- Ergonomic Lift Columns Allow for Precise Worktop Height Adjustment (X600P)
- Battery Chemistry: LFP Batteries are the Safest and Greenest Batteries Available
- 100% Uptime with Uninterruptible Instant-Swap Batteries
- Remote Charger for Off-Cart Charging
- Recharge Time: 2 Hrs – Fast Charging Reduces Number of Batteries Needed
- Capacity: 300-600 Wh – Modular Batteries Allow for Added Capacity
- Battery Weight: 6.2 lb each
- The DTG 5-Year Warranty is Unmatched in the Industry

Specifications

- Dimensions (Fixed Height): 46" L x 28" W x 38" H (X600/X300)
- Dimensions (Adjustable Height): 46" L x 28" W x 38" to 48.5" H (X600P)
- Weight: 250 lb (X300) / 260 lb (X600) / 330 lb (X600P)
- Ergonomic Electronic Height Adjustment with 10.5" Stroke
- Durable Welded Steel Chassis to withstand Industrial Environments
- 3 Steel Shelves (X600P) or 2 Steel Shelves (X600/X300) with Adjustable Positioning for Picking & Equipment Storage
- Ample Workspace for Equipment Needs
- Smooth Swivel Casters with Total Lock and Directional Lock Capability
- 4X Additional AC Power Outlets
