

2.4m Slide sideboard

Dimensions (mm)

2400l x 675h x 500d

About

The Slide sideboard was inspired by the Modernist furniture of the 20th century and has a minimal but warm aesthetic. It features top hung sliding doors that glide lightly across the face of the unit. Adjustable shelves are standard, though drawers can be added to any internal section. The Slide sideboard is supplied with solid wood legs but it has a batten fixing to enable it to be wall hung if required.

Materials

- Made from sustainably sourced timber.
- Birch plywood carcass with hardwood veneer.
- Birch plywood doors with HPL laminate or cork veneer.
- High quality Swiss sliding door gear.
- Solid wood legs to match veneer finish.
- Optional drawers in birch plywood with matching hardwood veneer and high quality Blum runners.
