Upon having your user account created, you will receive the following email in your inbox from no-reply@qwealth.com

Once you choose the option to **“CLICK HERE”** from the email, it brings you to a page that allows you to set a password.

The only requirement is that the password is at least 8 characters.

The password needs to be entered twice to ensure it is typed in correctly.

Once done, click on **Set Password**.

Below the logo, the text "Create a new password" is displayed. Underneath, it says "Your password must be at least 8 characters." There are two input fields: "Create a Password" and "Re-type your password". Each field has a small eye icon to the right, indicating a toggle for password visibility. At the bottom right of the form is a blue button labeled "SET PASSWORD".
