

Monthly Smart Device Safety Checklist

If it connects to Wi-Fi, it needs updates. This is in addition to updating your cellphone, computers and tablets!

Device Updates

- ■ Phone operating system updated
- ■ Tablet operating system updated
- ■ Laptop / desktop computer updated
- ■ Wi-Fi router or mesh system updated
- ■ Smart TV updated
- ■ Streaming device updated (Roku, Fire Stick, Apple TV)
- ■ Security cameras updated
- ■ Video doorbell updated
- ■ Smart thermostat updated
- ■ Printer updated
- ■ Smart speakers updated (Alexa, Google Home)
- ■ Smart plugs, lights, or switches updated
- ■ Baby monitor updated

Device Cleanup

- ■ Removed devices I no longer use
- ■ Replaced devices that no longer receive updates
- ■ Changed default passwords on smart devices

Quick Reminder:

If you don't remember the last time you updated it, it's time to check.
