Reaching Further. Delivering More.

As a sustainability-driven firm with projects across North America, South America, and Europe, we bring a rare global lens to every engagement. Our cross-continental experience equips us to navigate diverse climates, codes, and cultural priorities, delivering solutions that are both contextually smart and environmentally sound.

Completed by ASAP, Inc. prior to merging with BranchPattern.

Built for Agility. Grounded in Experience.

We combine the stability of long-tenured experts with a flexible, empowered team structure. Our people stay—and they're trusted to act. This means clients get responsive, informed decision-making from professionals they know and respect, backed by the strength of a connected firm.

*According to the U.S. Bureau of Labor Statistics, the median employee tenure in architecture and engineering occupations is 4.9 years

PLACING PEOPLE FIRST

Trust Earned Through Transparent Accountability

JUST is a voluntary label from the International Living Future Institute that measures workplace equity and social justice.

BranchPattern earned its first label in 2018 and proudly holds its fourth under the updated 3.0 framework—a reflection of our ongoing commitment to diversity, inclusion, employee well-being, and continuous improvement.

Guided by Our Core Values

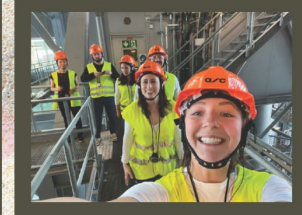

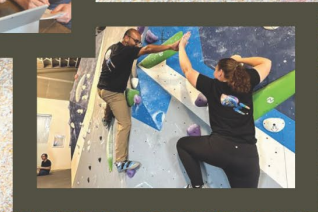

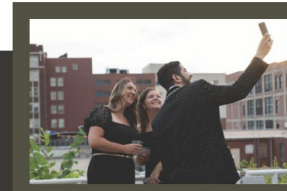

At the heart of our culture are three core values: build **GENUINE** relationships; find **PROGRESSIVE** solutions; and **ADVOCATE** for people and the environment. These values not only shape how we work internally but are deeply felt in how we show up for our clients and communities and fulfilling our purpose of **Improving Life through Better Built Environments®**.

Dedicated to Empowering Employees

Our Employee Stock Ownership Plan (ESOP) further reflects this commitment, giving every team member a meaningful stake in our collective success. This sense of shared ownership inspires pride, accountability, and a deeper connection to the people we serve.

As a result of this people-first mindset and the genuine care our team brings to every relationship, we're honored to be named one of *Inc.'s Best Workplaces 2025*—a recognition of what truly sets us apart.

HELPING CLIENTS REACH NEW HEIGHTS

Pikes Peak Summit Complex Colorado Springs, Colorado

Named ENR Mountain States' 2022 Project of the Year, the Pikes Peak Summit Visitor Center is an engineering triumph at 14,115 feet. Anchored into bedrock, it uses high-performance precast concrete, advanced mechanical systems, and bird-safe glazing to withstand extreme winds, freezing temperatures, and thin air. Through prefabrication, precision logistics, and energy-efficient design, BranchPattern helped deliver a resilient facility in one of the nation's harshest environments. The center achieved LEED Silver through renewable energy systems, water-saving strategies, and high-performance insulation that minimize environmental impact. Together, these innovations set a new benchmark for sustainable, high-altitude design and visitor experience.

IN THEIR OWN WORDS

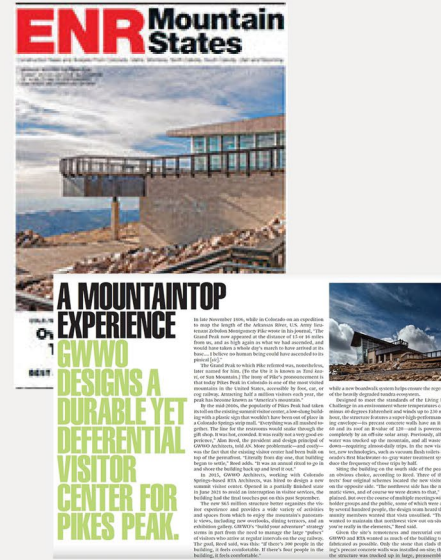

Our goal was to achieve both LEED certification and full Living Building Challenge Petal Certification—two of the most rigorous green building standards in the world. BranchPattern rose to the challenge, working seamlessly with our design and construction teams, as well as multiple government agencies. Their expertise and dedication were instrumental in helping us meet our sustainability goals in one of the most extreme and unique environments imaginable.

Sandy Elliot
Tourism and Finance Manager | City of Colorado Springs

FEATURED IN...

ENR Mountain States featured the Pikes Peak Summit Visitor Center as its 2022 Project of the Year, highlighting the project's engineering innovation and sustainable design at 14,115 feet.
