CUT FOR CHOICE.

Custom Fit

Made to Fit Your Device

Premium protection for supported phones, including curved screens.

No precut protector on the shelf? No problem. Flexera9 is custom-cut in-store for compatible phones, helping you get premium protection without waiting for a special order.

Whether your phone is brand-new, a few years old, or harder to find accessories for, Protection-Pro can create a precise Flexera9 fit on demand, provided your model is supported.

Shatterproof Protection.

Feels and protects like glass, but unlike tempered glass, Flexera9 can absorb multiple impacts without shattering or cracking.

Tested 9H Hardness**

PROTECTION THAT FITS THE WAY YOU USE YOUR SCREEN

Flexera9 is made for people who love the smooth feel and clarity of glass but want the versatility of film. Its specialized UV-cured hard coat provides tested multiple impact resistance while maintaining a responsive touchscreen.

Glass-like Hardness.
A specialized hard-coated surface delivered a smooth premium feel.

Precision Fit for Curves & Corners.
Cut on demand to fit supported phone screens, including curved designs.

Touchscreen Sensitivity.
Maintains touchscreen responsiveness for easy navigation and security features.

For Use With
Nexera ONE
Machine Only

PROTECT YOUR PHONE

BEYOND THE FIRST DROP.

Flexera9 combines the hardness of a specialized UV-cured surface with the convenience and fit of flexible film. Here's why that matters for how you use your phone every day:

- **9H Pencil-Tested Hardness:** A specialized hard-coated surface tested for exceptional hardness.
- **Impact Resistance:** Helps protect against everyday drops and impacts.
- **Glass-Like Clarity:** A smooth, clear finish that helps preserve your exceptional viewing experience.
- **Precision Fit:** Custom-cut for supported flat and curved phone screens.
