

 REGULATORY CHANGE AGENT

Transform How You Manage Regulatory Change with Agentic AI

Don't get inundated with regulatory updates—jump straight to operationalizing them. Regology's purpose-built AI agent doesn't just push alerts; it automatically updates your legal repository to reflect the latest amendments, assesses their impact on your business, and automatically maps them to your obligations. No more disconnected spreadsheets or guesswork; just clear, streamlined regulatory change management aligned to your policies, products, and teams.

Automate What Slows You Down

Say goodbye to spreadsheets and scattered alerts.

✓ Self-Updating Law Library

Our Regulatory Change Agent continuously monitors the regulatory environment and updates your Smart Law Library™ with regulatory changes across federal, state, and global jurisdictions.

✓ Gap Assessment

An AI Assistant, Reggi, flags missing laws and recommends additions, complete with an explanation of why the regulation matters to your organization.

✓ Automatic Change Tracking

Reggi summarizes and redlines the latest amendments so that you always know what regulatory changes took place. No more line-by-line reviews.

✓ Relevance Scoring & Routing

Alerts are auto-tagged and routed to the right teams based on topic, product, geography, and function—each with a Reggi-generated relevance score based on your business profile.

Anticipate What's Coming

Know what new laws and regulations are on the horizon.

HORIZON SCANNING

With built-in horizon scanning, the Regulatory Change Agent tracks legislative developments and bill progression at every stage, so you can see what's coming before it lands.

PROACTIVELY RESEARCH BILLS

Ask Reggi plain-language questions about the upcoming legislation, see how it may impact your business operations, and proactively generate first drafts of policies and controls to prepare for potential changes.

Act with Precision

Streamline processes and prioritize what is most important.

Easy Mapping

The Regulatory Change Agent automatically maps regulatory changes to your existing compliance framework, integrating updated requirements, controls, policies, and risks.

Engaged Teams

Assign regulatory tasks to specific teams and users directly in the platform, ensuring responsibilities are clear and accountability is maintained.

Fast Reports

From compliance and legal to business units and execs, generate insightful reports to keep teams informed and engaged at every step.

Ready to Transform Your Regulatory Compliance?

Join the leading organizations that choose Regology for more streamlined, proactive, and informed regulatory compliance processes powered by AI Agents.
