

Data Centers

Fielded July 14–15, 2026 · the memo’s data center questions broken out by seven demographic crossbreaks

**1,017**

REGISTERED VOTERS

±3.5

MARGIN OF ERROR

Figures are column percentages; each column sums responses within that subgroup. The **All** column reports the full-sample topline. This poll surveyed 1,017 registered voters via online panel from July 14 to July 15, 2026. Results were weighted by gender, race, education, age, 2024 vote recall, and 2020 vote recall to match population demographics. The margin of error is ±3.5 percentage points at the 95% confidence level.

Q30A Data-center arguments — China – If we don't build data centers here, they will have to be built in China which means your family photos and passwords will be stored in data centers accessible to the Chinese government.
