±4.9

MARGIN OF ERROR

Figures are column percentages; each column sums responses within that subgroup. The **All** column reports the full-sample topline. This poll surveyed 1,004 registered voters via online panel from September 10 to September 14, 2026. Results were weighted by age, gender, race, education, 2024 vote recall, and region to match population demographics. The margin of error is ±4.9 percentage points at the 95% confidence level.

Q1 In the 2024 presidential election, who did you vote for?

	ALL	GENDER		AGE			RACE				EDUC.				PARTY ID		2024 VOTE				PARTISANSHIP				2026 INTENTION				URB./RURAL			INCOME			AI TOOL USAGE

Q51 Modern data centers use cybersecurity systems, backup power, redundant networks, and other technologies designed to keep digital services operating during disruptions.

Knowing this, do you believe expanding modern data-center infrastructure in the United States would make the country more resilient or less resilient to cyberattacks and other disruptions?
