

Alight Health Equity Collective

A Movement to Advance Health Outcomes for Forcibly Displaced Communities

Growing Need, Shrinking Resources

Alight delivers compassionate, high-quality healthcare and nutrition interventions in some of the world's most fragile and conflict-affected regions. Yet consistent access to these lifesaving services is under threat due to seismic shifts in funding for lifesaving aid.

Through the **Alight Health Equity Collective**, Alight is bringing together leaders in philanthropy, health, academia and other sectors to mobilize a \$2 million pooled investment to sustain healthcare and nutrition access for displaced communities.

The lives of millions of people served by Alight across 10 countries including Sudan, Somalia, and Rwanda are at risk. With flexible capital, clinics can remain open, mothers can continue delivering safely with skilled care, and children can continue receiving lifesaving treatment and vaccinations.

The moment to act is now.

A Different Model: Local, Proven, Scalable

We walk alongside displaced people as they rebuild their lives. Working in partnership with local communities, we deliver healthcare and nutrition services that are dignified, practical, and built to last. We currently operate over 225 fixed and mobile health facilities that serve 3 million individuals annually. Our model is proven and ready to scale.

- **95% of Alight's frontline staff are local**
- **50 years of experience**
- **3 million serviced annually**

Introducing the Collective

The Alight Health Equity Collective is a catalytic platform designed to mobilize \$2 million annually in flexible funding while advancing a broader movement for equitable, dignified healthcare and nutrition services for forcibly displaced communities in fragile and conflict-affected regions.

More than a philanthropic vehicle, the Collective brings together a community of leaders committed to raising visibility of overlooked health crises, sharing insights from the frontlines, and fostering communities of practice that accelerate learning and action.

The Collective links knowledge, resources, and relationships to drive forward a shared ambition: advancing health equity in ways that are locally led, human-centered, and built to last.

One ambitious goal

As displacement accelerates, we aim to meet the moment—**delivering health and nutrition services to 4 million people each year at 300+ clinics by 2030.**

By joining the Collective, you will:

- Amplify your impact
- Deliver measurable outcomes for millions in fragile settings
- Gain direct access to frontline insights and real-time learning
- Participate in curated experiences—field visits, leadership convenings, and private briefings
- Join a trusted network of leaders advancing health equity
