Work Experience

Everlaw | Product Designer

Aug '23 — Current

Leading **end-to-end design** for core features in Everlaw's legal discovery platform, collaborating with **PMs, engineers, and legal experts** to deliver intuitive, scalable workflows that streamline complex processes. Contributing to product strategy through research, prototyping, and cross-functional alignment.

Driving improvements to the **design system** and **accessibility standards**, ensuring **WCAG 2.2 compliance** and consistency across the platform. Mentoring designers through critiques and UX best practices, fostering a culture of quality and collaboration.

Adobe | Product Design Intern

Jun '22 — Sep '22

Spearheaded the redesign of Adobe's **internal sales quoting tool** integrated with the company's CRM and customized CPQ system. Designed and validated **two high-fidelity prototypes** informed by user research, data analysis, and engineering constraints to improve workflow efficiency and usability.

nr2 | Product Design Intern

May '21 — Jul '21

Served as the **sole designer** at a search engine startup, leading the **end-to-end design** of a new onboarding experience aimed at improving **user retention** and reducing churn. Collaborated directly with founders and engineers to align design decisions with growth and engagement goals.

Dew (Personal Project) | Founder & Lead Designer

Mar '25 — Current

Founded and designed a **mobile and web app** that personalizes skincare routines by skin type and user concerns. Led product strategy, UX/UI design, and leveraged **AI-assisted tools** like Cursor to independently implement the full experience, building a **scalable, cross-platform design system**.

Education

University of Washington

M.S. in Human Centered Design & Engineering

Jun 2023

Carnegie Mellon University

B.S. in Cognitive Science

May 2021

Skills

Design Skills: Rapid Prototyping, Wireframing, Interaction Design, Visual Design, Accessibility, Design Systems, Responsive Design

Programming Skills: HTML, CSS, Javascript, React, Python, SQL, TypeScript, Storybook

Research Skills: User Research, Usability Studies, Heuristic Evaluation, Mixed-Methods Research, A/B Testing

Honors

Dietrich Honors Fellowship

One of eight students in entire college to be awarded fellowship for thesis.

Senior Leadership Recognition

Awarded for contributions to community and in leadership.
