BREDAL HITCH OPTIONS

Effective July 2023, Bredal Trailing Spreaders will have the option of three different types of drawbar hitches. Bredal continues to be flexible for product offering for your clients and their equipment needs, therefore we are pleased to offer the new Scharmuller CAT IV swivel Ring hitch. You will now have the option to swap from the traditional Type 5000 Ring hitch to the new Scharmuller CAT IV hitch at NO extra cost.

Refer to the below matrix of the hitch's standard on Bredal Trailing Spreaders effective July 2023:

	Hitch Options	Models Standard
Type 5000	50.5mm Hole Size.	K-Series WD K-Series VR K-Series XE F-Series Trailing
Type 4000	High Version Hitch Low Version Hitch	K-Series XE F-Series Trailing K135VR
Scharmuller	CAT IV (51mm)	Upgrade option

As of July 2023, Bredal Trailing Spreaders will enter Australia with the below face plate mounted to the front of the Bredal Chassis for mounting the three Drawbar versions as indicated on the following page.
