C165

The model C165 Remote Hydraulic Squeeze Off Tool is designed to control steel gas line breaks, onrisers, and distribution lines up to 2" in diameter.

Features include a three position head that will pivot to 45° and 90°, with a telescopic handle that can extend from 7' to 14' keeping the operator a safe distance from the gas line break.

The single-stage hydraulic hand pump provides 10,000 PSI in a lightweight and compact design.

This tool can be an ideal solution for emergency and remote applications. The tool comes with standard guide brackets that are included in the C165 kit, for ease of application.
