

C1200

For 8" to 12" PE Pipe

525 lbs / Height 37" / Width 34"

MODEL FEATURES

- Designed to squeeze 8" to 12" MDPE and HDPE pipe safely and effectively
- Built from aircraft-grade aluminum, making it strong, lightweight, and easy to handle
- Standard gauge plate settings offer stops for the most common pipe diameters and SDRs
- Lock-in / swing-out bottom bar design allows for easy install onto while reducing overall trench profile

C1200

The C1200 features 8-sided, positive locking, indexable gauge plates, aircraft grade aluminum squeeze bars, chrome plated steel side shafts and a 10,000 PSI hydraulic system with quick connect fittings. This CNC machined tool contains no welded parts and exerts 150 tons of squeezing force.

The unique lock-in / swing-out bottom bar design allows for quick and easy access to the pipe, even in confined spaces, and the lock down bolts ensure that a squeeze is maintained even if the hydraulics are disconnected. The C1200 also incorporates an efficient dog bone design on the jaws to obtain maximum flow control, while requiring minimal force to squeeze the pipe.

The C1200 also includes a standard grounding spike, and custom gauge plates are available upon request.
