Message from the Principal

»» Mr. Glenn Mace

This week is National Science Week. The theme for this year is “Seeds of Science: Nurturing knowledge for all.”

Across the school, our students will be immersed in hands-on STEM activities, experiments, and inquiry-based projects that spark student curiosity and develop problem-solving skills.

As engaging and rewarding as this week will be for our students, I pray that they will also be reminded of the greatness of our God. Our God, who created the universe and everything in it, also made us in His image and placed within our DNA, a desire to be creative, to explore, to discover, and to understand the world around us.

As a school, our desire is that seeds will be sown in the hearts and minds of every student—not only to inspire a greater interest in science, technology, engineering and mathematics, but also to draw their attention to the awesomeness of the One who created every atom, every cell, and every intricate detail of our world (Colossians 1:16).

Paul wrote in 1 Corinthians 3:6–7:

**‘I planted the seed in your hearts, and
Apollos watered it,
but it was God who made it grow.
It’s not important who does the planting,
or who does the watering.
What’s important is that God makes the
seed grow.’ (NLT)**

9-10 Work Experience

Last week and in the recent school holidays, students have the wonderful opportunity to go to local business and experience life in the work place. Students selected places of interest with them and we then approached local businesses to see their support in making work experience happen. We are very grateful and pray for God's blessings on the following business, without whom work experience is not possible.

St Leonard's Bakery, Rick Finlay, Windmill Hill Toys, Tatlers Lane, Goodstart Newstead, Eclipz Hair Mowbray, City Mission Prospect & City Mission Health, House of Motorcycles, JLH Automotive, T-Build, Selah Cafe, Teen Challenge, and Junction Farm Carrick. We also had students experiencing teaching with Mrs Preece in Kinder, various teachers in Year 1/2, Mrs Beams in Year 3/4, and Mrs McCormack and Mrs MacKenzie in Year 5/6.

9-10 Work Experience

Students are now reflecting on this time together, considering what they did and how it impacted them. In the coming weeks we will visit these business and present a certificate of thanks of appreciation of their efforts.

Community of Newstead Christian School
We would like to invite you to join our
Newstead Christian School 2026 team
at the Cancer Council Tasmania
Women's 5km Fun Run/Walk.

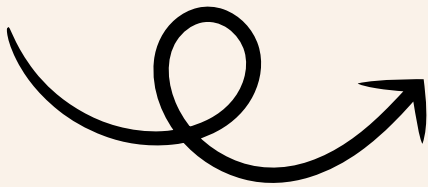

Sunday 13th September 2026
Registrations open this Thursday
