

Production Worker

Are you precise, hands-on, and enjoy working with electronics? Manus Technology is looking for a Production worker to help assemble and prepare our next-generation wearable products for shipment.

At MANUS, we build advanced data gloves and motion capture technology used in robotics, entertainment, VR, and research worldwide. Our mission is to push the boundaries of how humans and machines interact.

Job Description

As a Production worker, you'll be part of the team that brings our products to life. You'll assemble, inspect, and prepare our hardware for testing and shipping. You'll work closely with colleagues to ensure every product meets our quality standards—and occasionally help with logistics and packaging.

Your Responsibilities

- Assembling Manus products with precision and care.
- Ensuring high-quality standards are met before products are tested and shipped.
- Supporting the packaging and logistics process.
- Occasionally picking up components if you have a drivers license.

Our Ideal Candidate

- Experience in a similar production or assembly environment.
- Comfortable communicating in English, Dutch is a plus.
- Experience with soldering and working with electronics.
- A detail-oriented mindset and a commitment to quality.

We Offer

- A parttime or full-time job (36/40h)
- A salary of €2.400,- / €3.200,- a month (depending on experience)
- Holiday allowance of 8% (based on yearly income)
- Commuting allowance
- A warm, informal workspace within a growing organisation
