

EXTERNAL COLLECTION

BI-FOLD DOORS

Open up your home. Keep its character.

Steel-look aluminium bi-folding doors.

A wider opening, beautifully resolved.

Decorio bi-folding doors fold neatly to one or both sides, creating a generous opening while retaining the slim proportions and heritage character of traditional steel. Choose the panel layout, glazing bars, colour and hardware to suit your home.

Flexible configurations

Choose from one to nine panels, with the folding direction set around your opening.

Everyday access

Most layouts include a traffic door for day-to-day use, so the full set can stay closed.

Manufactured in Britain

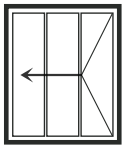

Explore the Decorio collection with your showroom team.

Choose how your doors open.

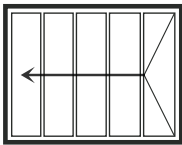

Your installer will help confirm the panel number, folding direction and threshold for your opening.

PANEL CONFIGURATIONS

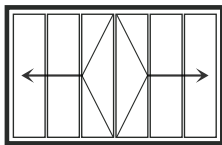

Available in a range of configurations. Three of the most popular options are shown below.

3 Panel

5 Panel

6 Panel Split

Finishing touches

Explore colours, glazing and handle options with your installer.

Choose between integrated 45mm transom bars or externally applied 25mm or 41mm astragal bars.

Performance, clearly explained.

FEATURE	REFERENCE SPECIFICATION	WHAT IT MEANS
Thermal performance	U-values as low as 1.2 W/m ² K*	Helps limit heat loss through the doors.
Energy rating	Up to Band B*	An overall door energy rating.
Security	PAS 24*	Tested resistance to forced entry.
Locking	Multi-point locking & key-locking shootbolt	Secures the master door and folding sashes.
Weather performance	BS 6375-1:2015*	Testing for air, water and wind resistance.
Typical sightline	122mm sash to sash	Slim proportions with generous glazing.
Glazing bar	Transom bars or Astragal bars	45mm transom bars or 25mm and 41mm astragal bars.
Threshold option	15mm Part M low threshold	A lower step for easier, more accessible entry.

*Referenced U-values, ratings, sightlines and performance vary with the final door configuration, glazing, threshold and hardware. PAS 24 and Part M apply to appropriate tested configurations. Confirm the final specification with your installation company upon ordering.
