

DECORIO

DOORS & WINDOWS

Create separation. Save valuable space.

Steel-look aluminium sliding doors, designed to glide.

A practical way to divide a room.

Decorio sliding doors create distinct rooms without the clearance required by a hinged door. Choose clear glazing to keep spaces connected or reeded glass for greater privacy, then tailor the configuration, glazing bar layout and handle style around your home.

Space-saving

No opening arc, leaving more room for furniture and clear walkways.

Smooth operation

Top-mounted rollers provide an easy sliding action, with no floor track.

British manufacturing

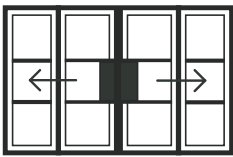

Explore the Decorio collection with your showroom team.

Made to suit your space.

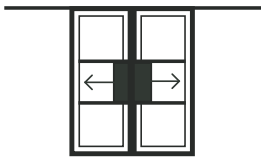

Choose the layout, track position, glass and handles with your installer.

SLIDING CONFIGURATIONS

Sliding doors can be combined with fixed screens within the opening using a head-fixed track, or fitted to slide across the wall using a wall-mounted track.

Double slider with side screens

Wall-mounted double slider

Finishing touches

Explore colours, obscure glass and premium handle options with your installer.

Reeded glass brings privacy and character, while premium hardware creates a distinctive finish.

Finer details, clearly explained.

FEATURE	SPECIFICATION & OPTIONS	WHAT IT MEANS
Track fixing	Head-fixed or wall-mounted	Beneath the opening head, or on the face of the wall above.
Operation	Top-hung rollers; no floor track	Smooth operation, with brush seals fitted along the sash edges.
Glazing	6mm toughened safety glass	Clear glass keeps light moving between rooms.
Privacy options	Reeded or other obscure glass	Reeded glass softens the view while retaining natural light.
Locking	None	Designed as a room divider rather than a lockable door.
Glazing bars	Additional bars available	Add glazing bars to create a bespoke design.
Typical door sightline	Around 35mm	Slim proportions inspired by traditional steel doors.
Maximum sash size	Up to 1200mm x 2500mm	Final overall size depends on configuration.

*Dimensions are width x height. Typical sightlines and permitted sizes depend on the final configuration. Confirm the specification and suitability of your internal sliding doors with your installation company before ordering.
