

Create defined spaces. Retain natural light.

Steel-look aluminium screens for internal partitions.

A brighter way to divide a room.

Fixed glazed screens create distinct areas without building a solid wall. Use them to form a home office, separate a hallway or complete a larger partition, while allowing natural light to reach further through the home or office.

Light between rooms

Glazed panels help daylight reach darker hallways and adjoining spaces.

Made around your layout

Use internal screens alone or combine them with hinged or sliding doors.

British manufacturing

Explore the Decorio collection with your showroom team.

From simple screens to full partitions.

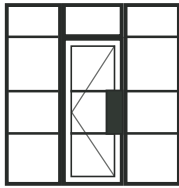

Use partition screens alone as statement screens or combine them with hinged and sliding doors.

LAYOUT OPTIONS

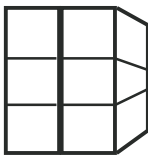

Fixed screens can stand alone, frame a doorset or turn a corner of a room into a partition space.

With doors

Cornered bay

Finishing touches

Explore colours and glazing options with your installer, including popular reeded glass.

From full partitions to internal openings, fixed screens help light travel between rooms.

Finer details, clearly explained.

FEATURE	SPECIFICATION & OPTIONS	WHAT IT MEANS
Uses	Standalone or with internal doors	Use alone, or as sidelights & toplights around internal doors.
Corner options	90° or 135° posts	Create L-shaped or angled glazed partitions.
Glazing	6mm toughened safety glass	Clear glass keeps light moving between rooms.
Privacy options	Reeded or other obscure glass	Reeded glass softens the view while retaining natural light.
Glazing bars	Additional bars available	Add glazing bars to create a bespoke design.
Typical transom sightline	33mm transom bars	Perfect for those seeking slim industrial-chic designs.
Maximum screen size	Up to 1400mm x 2500mm per screen	Final size depends on chosen configuration.
6mm Couplers	Joining couplers available	Join adjacent screen sections to create large partition layouts.

*Dimensions are width x height. Typical sightlines and permitted sizes depend on the final configuration. Confirm the specification and suitability of your internal fixed screens with your installation company before ordering.
