**Subject: Cadastro Ambiental Rural - CAR commitment concerning Universal DPI Safeguards Framework**

*Reference: When responding to this letter, please expressly indicate Docket # 18001.001237/2025-20.*

Dear Universal DPI Safeguards Secretariat Representatives,

1. We recognize the potential of DPI to accelerate the Sustainable Development Goals as highlighted in the Global Digital Compact adopted by all UN members. We also take note that poorly designed, implemented or maintained DPI can undermine safety and inclusion.
2. Recognizing the exponential potential of DPI in Brazil, it is essential that our **DPI Rural Environmental Registry (Cadastro Ambiental Rural – CAR)** is built with the right safeguards to ensure that they are inclusive and safe for people and enable progress towards Sustainable Development Goals. We, the **Secretariat for State Transformation at the Brazilian Ministry of Management and Innovation in Public Services** commit to adopting the Universal DPI Safeguards Framework in our Rural Environmental Registry (Cadastro Ambiental Rural – CAR) DPI.
3. The Universal DPI Safeguards Framework has been developed by the DPI Safeguards initiative, a global multi-stakeholder effort convened and supported by the United Nations Office for Digital and Emerging technologies (ODET) and the United Nations Development Programme (UNDP). The Universal DPI Safeguards Framework reflects the role of necessary safeguards to ensure DPI implementations mitigate new risks and existing structural vulnerabilities of digital transformation at both the individual and societal level, advance the SDGs and foster trust and equity across all countries.
4. As part of this commitment:
  - We will adopt the relevant Universal Safeguards principles at the appropriate lifecycle stages of a DPI implementation.
  - We will ensure consistent multi stakeholder engagement including civil society organizations across the lifecycle with special focus during design and implementation when choices of safety and inclusion are made.
  - We will build the capacity of government officials to respond to the potential risks proactively including through robust redressal mechanisms engaging with citizens.
  - We will actively enable ecosystem innovation on public infrastructure to ensure that we make progress

towards Sustainable Development Goals delivering societal value.

5. Through this letter, we nominate **Henrique de Vilhena Portella Dolabella, the Director of the Rural Environmental Registry**, as the focal point of our commitment. We look forward to engaging with Universal DPI Safeguards secretariat via UNDP in implementing our commitments and look forward to sharing our experiences with other countries and implementation projects.

Sincerely,
