

## AI-Powered Solutions for Modern Business

We build intelligent systems that transform how businesses operate

**10 AI Services**

[www.cerberon.io](http://www.cerberon.io)

01

# AI Chatbot

Intelligent conversational AI that handles customer inquiries 24/7 with human-like understanding.

## Natural Language Processing

Understands context, intent, and sentiment in any language

## 24/7 availability

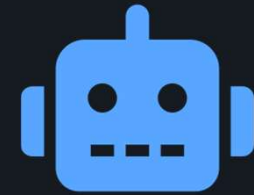

Always available

## Multilanguage Support

Native support in multiple languages

## Smart Knowledge Base

Generates intelligent, natural-language answers synthesized from your documentation

**Customer support**

**24/7 Availability**

# Software Automation

Beyond conversation — our AI take actions. Integrate with your existing systems to automate entire workflows.

Integrations

User  
Request

AI  
Understands

System  
Action

Automated  
Response

## Example Use Cases (not limited to)

- ✓ End-to-end workflow automation across one or multiple apps
- ✓ Elimination of human errors in manual processes
- ✓ Reduced clicks & friction for repetitive tasks
- ✓ Shorter onboarding & training for complex workflows
- ✓ CRM updates, scheduling & invoice generation
- ✓ Ticket routing, order processing & tracking

03

# AI Internal Assistants

Unlock knowledge from internal documentation with RAG-powered AI copilots for your team.

## Knowledge Base Search

Instantly query procedures, technical docs and internal databases

## Accelerated Onboarding

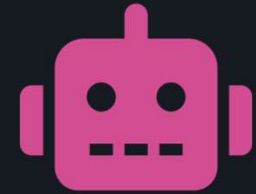

New employees get instant answers, reducing ramp-up time

## RAG-Powered Accuracy

Retrieval-augmented generation ensures answers cite real sources

## Secure & Private

Data stays within your infrastructure, fully compliant

Employee Copilot

04

# Predictive Maintenance

Reduce unplanned downtime with AI-driven anomaly detection and failure prediction for industrial equipment.

## Anomaly Detection

Monitor sensors in real-time and flag deviations before failure occurs

## Failure Prediction

ML models predict equipment failure hours or days in advance

## Maintenance Scheduling

Automatically schedule maintenance windows to minimize operational disruption

## Digital Twin Integration

Simulate equipment behavior to optimize maintenance strategies

**Industry 4.0**

05

# AI Analytics & Reporting

AI that query your databases — ask questions in plain language, get instant reports and insights and **keep data confidentiality**

**Ask**

Plain-language queries

**Query**

Any database or system

**Build**

Reports built on demand

**Spot**

Trends & patterns

06

# AI Office Automation

Automate your daily office work — emails, documents and appointments handled by AI.

**Save Hours  
Daily**

## Email Automation

Draft, send & follow up emails automatically

## Documents

Generate, fill and route documents without manual input

## Appointments

Schedule meetings, send reminders and manage calendars automatically

## Notifications

Alert the right people at the right time with zero manual effort

# AI Security

Monitor threats, defend with AI, and keep your AI systems secure — a complete security framework.

**Zero Trust  
Ready**

## AI for Security

AI monitors networks 24/7, detects anomalies and escalates real threats in real time

## Security with AI

Automate incident response, threat hunting and vulnerability management at scale

## Security for AI

Defend AI models against manipulation, malicious inputs and data compromise

## Compliance & Audit

Auto-generate audit trails, enforce policies and meet regulatory requirements with AI

08

# AI Document Processing

Automatically extract, classify, and process data from invoices, contracts, forms, and any document type.

OCR + AI

## Invoices

Auto-extract amounts, dates, vendor info

## Contracts

Identify key clauses, obligations, deadlines

## Forms

Parse handwritten and digital form fields

## Receipts

Capture expenses for automatic bookkeeping

09

# AI Voice Assistant

Intelligent voice-powered AI for call centers, phone support, and internal operations. Speaks naturally in multiple languages.

Voice AI

## Inbound Call Handling

Answer, route, and resolve customer calls automatically

## Outbound Campaigns

Automated follow-ups, reminders, and surveys

## Multi-Language Support

Natural speech in 30+ languages with accent adaptation

## Real-time Transcription

Live call transcription and sentiment analysis

10

# AI Content Generation

**Automatic generation** of marketing copy, reports, product descriptions, emails, and social media content — tailored to your brand voice.

**Content AI**

## Marketing Copy

Ads, landing pages, campaigns

## Email Campaigns

Personalized at scale

## Reports & Docs

Auto-generated business reports

## Social Media

Platform-optimized posts
