MV+AI

MV+AI continuously analyzes road conditions and driver actions, detecting distracted driving and risky behavior, providing instant alerts to prevent accidents and maintain safety.

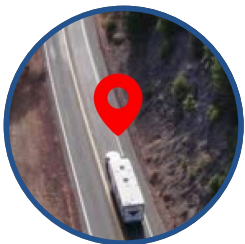

Smarter insights, safer fleets.

Live Alerts and Incident Footage

The IQ-CAM instantly detects risks like distracted driving and speeding, sending **real-time notifications** to drivers and fleet managers.

Catch risks before they become accidents!

No Additional GPS Needed

Stay connected to every vehicle, anytime. With built-in GPS tracking, fleet managers can monitor routes, view live video and locations, and receive instant updates on delays or unauthorized stops.

Know more! Move smarter!

Benefits

Prevent Accidents
Real-time alerts and proactive coaching keep drivers and cargo safe.

Protect Your Driver
Exonerate them with video evidence and stop false claims before they start.

Boost Efficiency
Optimize fuel use, protect your vehicles, and keep schedules on track.

Save on Cost
Cut insurance premiums, avoid payouts, and reduce costly downtime.

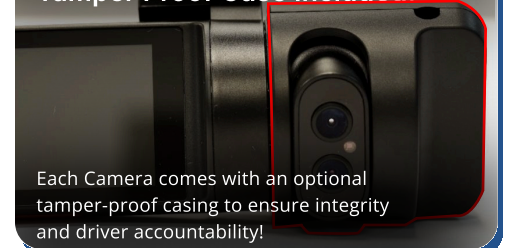

Harness the Power of AI
AI-driven analytics identify trends, predict risks, and unlock new efficiencies.
