

IQ-WIRED-28

Long-life tracking built for the toughest jobs.

USE CASES

Rugged Tracking Built For Harsh Conditions

Heavy equipment and trailers face dirt, dust, water, and constant vibration, but the IQ-Wired-28 is built tough to perform reliably in the harshest environments.

"Engineered to survive where your equipment works."

Engine Run Time For Smarter Maintenance

Hardwired installation makes engine run time tracking simple and accurate, giving you the data needed to plan service and extend asset life.

"Know every hour, plan every service."

Reliable Trailer Monitoring In Any Environment

Trailers often sit idle outdoors exposed to the elements, and the IQ-Wired-28 ensures dependable visibility and tracking in any weather.

"Dependable tracking, rain or shine."

Use In All Industries!

Fleet Management & Logistics

ASSET UTILIZATION
Ensure trucks are being used efficiently; reducing empty runs.

TRAILER TRACKING
Monitor trailer location, detect when detachment, when they are idle.

ROUTE TRACKING
Monitor and verify routes taken to reduce detours, delays, and costs.

DRIVER BEHAVIOR
Monitor reckless driving to reduce accidents and costs.

Construction & Heavy Equipment

MONITOR USAGE
Track generator and pump status via I/O to ensure uptime and prevent unexpected failures.

COMPACT & TOUGH
IP66-rated housing resists dust, rain, and harsh work conditions.

Supply Chain & Cold Chain

DOOR ALERTS
Alerting on door open/close, temperature excursions, movement in wrong zones.

GEO-FENCING
Ensure assets stay in authorized corridors or storage locations.

Utilities & Field Services

TRACK SERVICE VEHICLES
Know when they are in motion or idle.

EQUIPMENT MONITORING
Monitor auxiliary equipment such as generators and pumps in real time through digital inputs and outputs.
