BLIND-SPOT PROTECTION

— TODAY'S REALITIES ON THE ROAD · MAXIMIZE SAFETY

Forward-only isn't enough on high-risk routes. Lane merges, sideswipes, and T-bones happen where forward cameras can't see.

Nuclear verdicts hit fleets hardest. One unproven blind-spot incident can swallow a quarter. Multi-angle proof shuts it down.

360° exoneration protects every angle. Side, rear, and in-cab footage backs the driver and the policy in the same frame.

One platform. Six reasons fleets choose IQ-CAM ME40.

THE AIRIQ SOLUTION

360° vehicle protection
Forward, cabin, side, and rear. Every angle covered, every mile.

Full-feature mobile app
Live multi-channel view, evidence, scorecards, geofencing. Fleet in your pocket.

Protect your blind spots
Optional side cams capture lane merges, sideswipes, and T-bones.

ADAS + DMS coaching
Collision, lane departure, distraction, fatigue. Flagged in the moment, coachable after.

Variety of camera views
Side, rear, and mini-dome. Mix and match by route. Pick the angles that matter on the truck.

Device location sharing
Share live vehicle locations to reduce status-check calls.

NEXT STEP

Protect your drivers and your bottom line with the ME40

ALSO INCLUDES · LIVE VIDEO & SNAPSHOTS · SINGLE PANE OF GLASS · GEOFENCING + RETROACTIVE GEOFENCING · DRIVER SCORECARD · EVIDENCE DASHBOARD · AUTOMATED REPORTING · REAL-TIME ALERTS
