

POSITION: PROGRAM DIRECTOR – MEDICAL COLLEGE MEDTECH INCUBATION PROGRAM

Department : Startup & Innovation Vertical

Location : New Delhi

Reporting To : Program Director, Startup Vertical

ROLE OVERVIEW

The Program Director – Medical College MedTech Incubation Program will lead the establishment and management of MedTech incubation centers in prominent medical colleges across India. The role involves close coordination with medical institutions, resource persons, and startups to build a strong ecosystem that fosters innovation in medical technology and healthcare solutions.

KEY ROLES AND RESPONSIBILITIES

Establish MedTech Incubation Centres

- Lead the setup and operationalization of MedTech incubation centres in selected medical colleges across the country.
- Oversee infrastructure development, resource mobilization, and operational planning in alignment with institutional and program objectives.

Coordination with BIOME SAMARTH Program

- Collaborate with resource persons under the BIOME SAMARTH Program to conduct feedback sessions, surveys, and validation exercises for MedTech products.
- Ensure structured input from clinicians and medical professionals to strengthen startup product development.

Engagement with Incubation Centres

- Coordinate with incubation centre heads and coordinators in the newly established MedTech incubators to ensure effective program delivery and knowledge exchange.
- Support local teams in identifying and nurturing promising MedTech innovations emerging from medical colleges.

Mentorship and Startup Support

- Facilitate mentorship connects, expert guidance, and strategic inputs for MedTech startups.
- Support startups in areas such as clinical validation, regulatory pathways, business modelling, and market readiness.

Reporting and Governance

- Report to the Startup Vertical Program Director and participate in all relevant review meetings and planning sessions.
- Maintain documentation, periodic reports, and impact assessments for all MedTech incubation centres under the program.

QUALIFICATION & EXPERIENCE

- Essential Qualification: MBBS degree from a recognized institution.
- Experience: Minimum 10 years of professional experience in clinical practice, public health, or supporting biomedical/MedTech startups.
- Desirable experience in innovation management, incubation, or healthcare entrepreneurship.
- Strong understanding of medical technology development, healthcare systems, and product validation processes.

KEY SKILLS AND ATTRIBUTES

- Program management and coordination.
- Stakeholder engagement and networking.
- Understanding of MedTech innovation and regulatory processes.
- Strong communication, analytical, and documentation skills.
- Commitment to advancing healthcare innovation and translational research.
