BLOCKCHAIN FOR IMPACT

INTRODUCES

BFI **BIOME** NETWORK

Blockchain For Impact (BFI) is excited to announce the launch of its virtual BFI-Biome Network (BFI- Biomedical Innovation Network) to bring leading researchers, technologists, and innovators together in the form of a dynamic network to convene, identify gaps, collaborate and innovate in the biomedical sector to solve pressing health challenges.

BFI-Biome Mission: Catalyse and accelerate transformative healthcare solutions through cutting-edge biomedical innovation.

BFI is **inviting** applications from top Indian research institutions, research networks, and science & technology incubators to partner and operationalize the BFI-Biome. New organizations with deep research and innovation focus can also apply.

Up to 1 Million USD over three years for Institutes for translational research

Up to **200,000 USD** over three years for incubators/research networks for workshops, fellowships and kickstarter support.
