

COMMUNITY RULES

Current violation fines, as well as other fees and charges, can be found on the Community Rate Card, which can be obtained by contacting the Community office.

Absence from the premises for thirty (30) days after any breach of the agreement by the Tenant shall constitute abandonment.

UTILITIES

1. Tenant is responsible for maintaining and repairing water lines, sewer lines, and electrical lines beyond the meter and under the Tenant's home. Management is responsible for repairs up to the meter on or to the home lot, unless it is deemed that the root cause of the required repair/s are due to tenant negligence, not monitoring or properly maintaining their utilities and service lines.
2. Tenants are responsible for the maintenance, repair, and proper use of all plumbing fixtures, lines, and

connections located within or attached to the home. Tenants must provide reasonable access to their lot and home when necessary for inspection, maintenance, or repair of utility systems.

3. Plumbing lines must be kept in good repair. Management reserves the right to inspect inside or outside of homes for leaky faucets and fixtures, upon reasonable notice to the Tenant; and reserves the right to shut off water to the home in the event of a substantial water leak or constantly running water.
4. Management reserves the right to restrict water usage during an emergency period arising from weather conditions, mechanical breakdowns or other demanding circumstances.
5. Do not flush garbage, sanitary napkins, paper towels, contraceptives, disposable diapers (even if it says flushable), grease, fat or any other non-soluble substance in toilets or drains. If a clog, disconnect of a sewer line or damage of any kind is caused by the Tenant or his/her guests, the Tenant will be charged for all costs associated with investigation and repairs.
6. The placement of oil or propane tanks must be approved by Community Management.
7. Homeowners are responsible for the proper installation and maintenance of heating oil or propane tanks. Tanks must be installed to code by a licensed technician. The homeowner may be required to replace the oil or propane tank if it is deemed to be defective. The homeowner is responsible for the cost of environmental cleanup or repairing any damage to the property caused by a Tenant's oil or propane tank.
8. Any permit fees for the installation of oil tanks required by the city are the sole responsibility of the Tenant.
9. The Community hereby reserves the right to install individual water meters on each Tenant's lot, and thereafter to charge each Tenant for his/her own water usage and wastewater discharge. Tenant will receive a prior written notice if and when the Community institutes this practice. In particular, the Community will provide Tenant with prior written notice of its need to have access to Tenant's lot and/or home for the installation of individual meters. Tenant agrees that Management shall be provided such access, which will not be unreasonably withheld by Tenant, and that such installation of meters may be accompanied by a brief interruption to Tenant's water or other services, for which the Community will not be held liable. If and when the Community institutes this practice, the Community, or its agents or assigns will bill Tenants for water usage and waste water discharge, as determined by Tenant's metered usage and the utility/city's prevailing rate(s), which rates Tenant may obtain directly from the utility/city or from the Community upon request, plus the Community's handling charge. Such total charges shall be deemed to be additional rent due on the next date Tenant's monthly rent is due or would have been due. The Community or its agents or assigns shall have the right to enter onto the lot for the purpose of installing, maintaining, and reading the meter and related equipment, and shall have the right, upon reasonable notice, to interrupt service to the mobile home temporarily during any work completed on or relating to the meters. Failure to pay water or wastewater charges, or any other charges assessed as additional rent in a timely manner is considered a breach of the Lease Agreement and may be grounds for eviction.
10. Tenant will not tamper with meters or equipment. Tenant will be responsible for the cost of repairing meters damaged by tampering.
11. The Community shall have no liability for the accuracy of any meters or equipment pertaining to utilities provided to and utilized by Tenant's lot, whether now existing or installed in the future, and the Community disclaims any liability for the accuracy of any and all such meters. Tenant may, not more frequently than one time during any calendar year, request that the Community have a meter calibrated by the utility/city, the cost of which shall be payable by Tenant to the Community in advance. If the results of any meter calibration disclose a discrepancy between the actual and metered services historically provided to Tenant's lot, the meter shall be recalibrated to eliminate the discrepancy but the Community shall have no liability for any amounts paid by Tenant to the Community prior to such recalibration.

GARBAGE

1. If the Community is served by individual trash pickups, trash must be stored in secured garbage cans and placed at the rear of each home between collections. The Tenant shall move trash containers to the street for collection on the morning of collection day. No garbage is to be kept on the street overnight. Within twelve (12) hours after collection, the homeowner must return trash cans to the appropriate storage area.
2. The following items are considered "non-household trash": furniture, tires, appliances, auto parts, metal, skirting, debris, lumber, mattresses, large electronics, televisions, brush & firewood, paint, and hazardous chemicals. These items are not permitted to be disposed of in the Community, except in cases where there is a dedicated dumpster specifically for these items. 2. In any action to enforce or interpret these Rules or the Lease Agreement, attorney’s fees and court costs will be recoverable by the Community to the extent permitted by law
3. These rules & regulations are incorporated in the lease agreement and made a part thereof

MHC TENANT PROTECTIONS ADDENDUM TO MH COMMUNITY RULES AND REGULATIONS

A. MH Home Owner is entitled to a one-year renewable lease term unless there is good cause for non-renewal. “Good cause” includes: (1) violations of law by MH Home Owner, (2) an existing default in the payment of rent by MH Home Owner at the time of Lease renewal (subject to any applicable grace period and cure rights), and (3) serious or repeated violations of the material terms and conditions of its Lease by MH Home Owner.

6. MH Home Owner has the right to (a) sublease, and (b) assign its Lease, for the unexpired term, to the new buyer or sublessee of the MH Home Owner’s Manufactured Home, without any unreasonable restraint, as long as the prospective buyer or sublessee, as applicable, qualifies as a new tenant within the MH Community (including satisfying Landlord’s applicable credit and background checks and any requirements in the MH Community Rules and Regulations).

If any of the foregoing requirements violate applicable law (including if applicable law provides a more favorable protection to the Applicable MHC Residents), then such requirement(s) will be deemed automatically void and of no force or effect. The invalidity or unenforceability of such requirement(s) will not affect the validity or enforceability of any other provision of the Lease, and all other provisions will remain in full force and effect.
