## WHALESHEAD BEACH RENOVATIONS REQUEST FORM

### **Photos & Visuals**

Please be as descriptive as possible and include samples and photos of what you plan to build or install so we can quickly make a decision for you on how to proceed.

### **Flintstone Staff Follow up**

Once submitted, your application will be reviewed and you will receive a written response on how to proceed; additional information may be required.

### **Utility Considerations (If Applicable)**

**Electrical Upgrades:** Tenants are responsible for ensuring any new appliance or electrical additions do not exceed the capacity of the home's existing panel. Installing items that draw more power than your service allows can result in serious hazards, including fire or damage to your unit and community utility equipment. We strongly recommend consulting a licensed electrician before starting any electrical work.

---

## **IMPORTANT**

**Do not begin any work until you have received written approval from Flintstone Properties to do so. If any work is done without approval, or if the project changes and is beyond the approved scope of work, a stop work order will be issued and the tenant could be subject to fines and removal at their expense.**

**By submitting this application and proceeding with renovations, the tenant agrees to assume all responsibility for any liability and/or damage to park property. Any costs incurred or repairs required due to damage or negligence during this renovation, will be billed back to the tenant.**

Follow up Notes to Property Management Staff:

- Insert Notes:

**GENERAL**

- Before work is completed, the tenant must produce a valid permit for work being done, or proof from the Village that a permit is not required.
- All work must be checked and approved upon completion by Park Staff to close the request.
- Please review the process for park renovations and follow up with additional information and inspections as required.
