

Environmental Policy

Environmental Policy

The Environmental Policy of Wizard Pi Ltd (“the Company”) is to ensure, so far as is reasonably practicable, that all operations are carried out with a clear commitment to protecting and enhancing the environment.

As an office, we recognise that our activities generate waste, particularly paper products. However, as we strive for excellence in every aspect of our business, we are committed to minimising the environmental impact of our operations.

Our Aims

1.1 Continuously seek to improve environmental performance, particularly in the recycling and re-use of paper.

1.2 Where possible, use recycled or environmentally friendly paper.

1.3 Re-purpose waste paper for notepads, unless confidentiality may be compromised.

1.4 Reduce the consumption of resources and improve efficiency by printing double-sided wherever practicable.

1.5 Manage waste generated by business operations in line with the principles of reduction, re-use and recycling.

1.6 Recycle all paper products, ink cartridges and toner cartridges.

1.7 Comply, as a minimum, with all relevant environmental legislation as well as any other applicable environmental requirements.

2. Review and Commitment

This Environmental Policy will be reviewed regularly and updated where necessary to ensure it remains relevant and effective. The management team fully endorses this policy and is committed to its ongoing implementation
